# FORAKER MAKING A CREAT EFFORT

But Ele Cohorte Are Wenkening as o Drifting to the Support of His Opponent—It May be Settled This Afterno

Columnus, Ohio, Dec., 31.—The characters on the signboard tonight read "Snerman," although the managers and friends of Governor Forsker fail either to realize or admit such to be the case. Senator Sherman arrived in Columbus at an early hour this morning, and his appearance soon manifested theif in a stiffening up of the claims of his friends made last night that the danger line had been passed, if one ever really did exist. Sherman never appeared to better advantage than today, and the argument made my the friends of the governor that Mr. Sherman was old and feeble, was completely snattered by his vigorous shaking hands today with the hundreds that called to pay their respects, and converse with the senator. Governor Foraker and Mr. Sherman met at the breakfast table this morning and shook hands in the most cordial manner, and giving expression to sentiments of hearty go will. The news that Mr. Sherman w in the city was sufficient to attract visitors to his room, and before the hour of room had arrived the Snerman people were in the most happy frame of used, and Mare Canfident Than Ever

of electing Mr. Laylin, their candidate, as speaker, with votes to spare. On the outside, about the corridors and lobbies of the hotel, the Sherman sentiment grow more strong, and money was freely offered that Laylin would be elected speaker and Sherman senstor, but none ventured to grasp at the propositions. The Foraker men are unusually active and almost frantic in their effort to regain lost ground, or rather get back the presuge that seemed to be theirs on Tuesday; but every effort to do this has been met with a broadside calculated to make in-

effective their labors, and the claims made are easily thrown into discredit by the shrewder and more potent arguments of the Sherman people.

The doubtful contingent that has held positions on the fence, awaiting the opportunity to make sure of coming off their perchers and landing upon the winning side, are about ready to enter the Sherman camp, and their action will probably emphasize the fact that rone other than Mr. Sherman will be returned to the senate. Governor be returned to the senate. Governor Foraker is working with all the tact and vigor that a desperate cause could suggest, and this afternoon he held senator Bain in his private parlor for nearly three hours in a fruitless effort to win him over from Sherman.

The efforts made by certain friends of the governor to work up a sentiment ngainst Mr. Sherman through the labor organizations has utterly tailed and will count for nothing. The leading spirits in the move held plazes under the governor, and have been in the service of his managers.

the governor, and nave been in the ser-vice of his managers.

The agitation of this question has caused the friends of Mr. Sherman to bring cut a letter written by him in 1884, during the presidential contest, and at the time the long strike in the Hocking Valley coal region was in Mr. Sherman was asked as to his

wishes about

and in reply he wrote: "I think I had better speak once in the mining region. Although I want it distinctly understood it I go there that my sympathies are in this present strike entirely with the miners. I think the reduction from 70 to 50 cents a ton totally uncalled for. I have no des re to meddle in the matter, except if I speak at all upon the subject I must speak truly."
The point of the spilators was that

word of sympathy for or with the la-borers of this or any other state. The Sherman people at a late hour tonight are confident, and intimate that they will be stronger in the morning than ever before. It is suspected that there is to be a break in the Hamilton county delegation, all the efforts of George Cox seemingly being unable to hold on the speakership issue.

It has been agreed to hold the house caucus at 20'clock Saturday afternoon. The Sherman men say that they are ready and confident.

Sherman le Confident. Senator Shorman expresses himself as having no doubt of his election, though he refuses to talk of the details of the contest. Mr. Laylin, the Sherman candidate for speaker, has made a gain of four votes during the day and claims that there is no doubt of his being chosen at the caucus Saturday evening. It is conceded by both mides that the speakership victory will be worth from three to five votes from the non-committed members for the senatorship, because of the favors which carries with h. Should Mr. Laylin e chosen there can be no doubt about the caucus nomination of Sherman, and the managers of the senator claim that they can win even should they be so unfortunate as to lose in the speaker.

Gathering for the Contest. Continues, O., Jan. 1 .- The town is crowded tonight with politicians and excitement over the senatorial figh between Forsker and Sherman is intense. Friends of both candi-dates are here in large flum-bers and both ades feel confident hers and both ades feel confident that they will win. Sherman arrived yesterday and he has been hard at work since. It is claimed by the Foraker men that the Washington administration is working against their candidate and has succeeded in doing him harm. A quarrel arose as the men stood there and suddenly Burns drew a revolver and shot Enright through the left breast just below the heart.

Enright staggered and fell to the sidewalk. Burns torew away his revolver and fled in one direction, while Maher, too much under the influence of inquer to realize what had been done, reeled off in the opposite way.

The occupants of the saloon rushed out and raised Enright to a sitting posture. Then they called the police and the wounded man was taken to the hospital, where his wound was pronounced probably fatal.
